ABOUT US

HUTTON'S™ PROFESSIONAL DETAILING PRODUCTS started its business in 2005 as Hutton Enterprises servicing new and used car dealers, independent detailers, as well as body shops for their surface car care products. Along with our own line-up of Professional Detailing Products, we also distribute Meguiar's Professional Products, as well as Flex Polishers, Grit Guard, Zane's Wheel Shield and Tornador Cleaning Tools. Over the years, the company has continued to grow through the introduction of many new products, customers and our incorporation.

At Hutton's, we are dedicated to the development of Eco & User Friendly products. We use cutting edge technology and ingredients, to provide our valued customers with premium quality products.

Featured below are a few pictures of our company vans. We arrive at your location on a regular schedule, fully stocked with everything from detail brushes to drums of chemicals for all your clean-up, parts and service department needs.

We will never sacrifice our commitment to service and we will continue to provide training for the surface care technicians of today and tomorrow. You might say that we at Hutton's are certainly 'car crazy!'. We would like to encourage everyone who has not yet tried our Professional Car Care Products, to give us a call. You will not be disappointed that you did.

Yours Truly,

Kevin Hutton
President - Hutton's Inc.

USAGE COST CALCULATIONS

Concentrated Products are to be diluted with water. Depending on the product and the amount of strength you want, one gallon of product can actually make several gallons of product.

Using a Metering system makes diluting your products very simple, but how much does it actually cost?

If the product you are using is to be diluted 2:1 this would be two parts water to one part product. Therefore this would make 3 gallons.

This is called the Product Yield. To determine your product yield add the two numbers together. ex (2:1=3 3:1=4 4:1=5)

Usage Cost is calculated by your product cost per gallon divided by the Product Yield

For Example: If you bought a five gallon of concentrated product for \$100.00 and the Dilution rate was 3:1 your Usage Cost would be \$5.00 per gallon (\$100.00 Divided by 5 gallons = \$20.00 divided by your dilution rate of 4 = \$5.00 per gallon)

EXXTREME CAR CARE CLINIC

HUTTON'S™ EXXTREME CAR CARE CLINIC

We call it EXXTREME for a reason...This is the most comprehensive detailing course you will find on the market! Our custom clinic will teach you how to clean, degrease, de-odorize, repair, water sand, buff 'n polish. Our 'in class' and 'in shop' hands-on training program is structured to give students the educational products, tools and know-how you need to detail any type of vehicle with the highest quality standards.

Upon completion of the course, each successful participant will receive a Car Care Professional Certificate and free samples of select Hutton's products. Our classes are limited to 6-8 students to ensure that every student receives the maximum amount of training.

Register Today by calling Hutton's at **519.836.4740**. or online at **huttons.ca**
Space is limited.

***"THE PATH TO SUCCESS BEGINS WITH ACQUIRING THE NECESSARY
TOOLS. THE PRIMARY TOOL IS EDUCATION."***
